From Jim Croce to Loggins & Messina Todd brings forth Memories of Days gone by!

Todd started playing out when he was 13. His Mom was a fabulous honky-tonk piano player, so he learned his chops playing country standards like Sweet Georgia Brown, Won't You Come Home Bill Bailey, All of Me and Hey Hey Good Looking. Evolving through the decades, Todd has played in rock bands, country bands, blues bands and even performed on the '80s TV series Solid Gold.

Now all these years later, he's mellowed [a bit] and is still playing, now showcasing songs by Lyle Lovett, Dean Martin, Alan Jackson, Delbert McClinton, Leon Russell, Jim Croce and Loggins and Messina. You'll also enjoy some of his light-hearted comedy sprinkled throughout the show.

So come on down to the show. You'll hear some of your favorites and some groovy tunes from the graveyard of forgotten classics.

What is a Pendulum?

A pendulum is a length of chain or string with a weight on one end and just about any weight on a string or chain will work: a pendant, a wet tea bag, a bead on a thread... you get the idea!. If you prefer, you can buy one online or in shops in your community.

How does it work?

When you ask a question, universal intelligence answers. Your body receives the answer energetically as intuitive guidance, often experienced directly as a thought or idea, a feeling, or a sense of knowing.

When you're using a pendulum, the energy of the answer creates an unconscious response in your muscles, causing the pendulum to move in your 'Yes' or 'No' swing pattern. This provides an outer demonstration of your inner

knowing, making it easier to recognize. Always remember that your arm and hand are being moved by the energy of the answer coming through you causing the pendulum to swing - it isn't being moved by any supernatural force, and the pendulum itself is not giving you the answer.

Herkimer Diamond

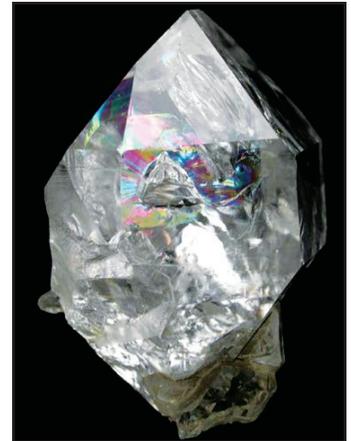

DID YOU KNOW... that holding or wearing a Herkimer Diamond while doing a Tarot reading can enhance & clear your space.

True Herkimer diamonds are double-terminated quartz crystals discovered within exposed outcrops of dolostone in and around Herkimer County, New York and the Mohawk River Valley. The "diamond" in their name is due to both their clarity and natural faceting - crystals possess double termination points and 18 total faces.

HERKIMER DIAMONDS are a gemstone that has a meaning and properties of strengthening people's mind. This gemstone can vitalize the owner's energy. Herkimer Diamond is famous for its superior purifying power. It has the power to purify people's

Crystal grids

Crystal grids can be more powerful than using just a single crystal for an intended goal. Crystal grids are made by the intentional placement of stones or crystals in a geometric pattern for the specific purpose of directing your energy towards a goal.

Grids may be used to clear & recharge anything from your home, workspace, food & more.... Crystals: All your crystals and jewelry should be kept in a crystal grid field. This will clear them of negative emotions and charge them

with energy you can use when you have them with you.

Food: Any food placed in the grid will be charged, even through the container. Canned or bottled, packaged or boxed, in bags or bowls, whatever container you have, any food within them will become charged and retain that charge until you use it.

Grids use a number of standard parts that, when combined with knowledge and skill, can produce a powerful,

synergistic combination of crystal energies. ... Knowing which crystals to use, and where to place them on which grid pattern requires knowledge of the energies of crystals and of the universal
